Description:

These are the cornerstones the six Men of Haven bleed by: taking what they want, always watching each other's backs, and loving the women they claim with unyielding tenderness and fierce passion. A self-made man with his fingers in a variety of successful businesses, Jace Kennedy lives for the challenge. From the start, he sees Vivienne Moore's hidden wild side and knows she's his perfect match, if only he can break it free. Earning this woman's trust is a task unlike any he's faced so far, but Jace didn't get where he is by giving up. Vivienne's determined to ditch the

rough lifestyle she grew up in, even if that means hiding her true self behind a bland socialite veneer. Dragging her party-hound sister out of a club was not how she wanted to ring in the New Year, but Viv knows the drill. Get in, get her sister and get back to the safe, stable life she's built for herself as fast as humanly possible. But Viv's plans are derailed when she meets the club's seriously sexy owner. Jace is everything Vivienne swore she never wanted, but the more time she spends with him, the more she starts to see that he loves just as fiercely as he fights. He can walk society's walk and talk society's talk, but when he wants something, he finds a way to get it. He's proud of who he is and where he came from, and he'll be damned if he lets Vivienne go before showing her the safest place of all is in his arms.

Nothing revs my motor more than a protective and possessive alpha! Holy cow, Jace was fantastic! There are a lot of things about this book that I liked and a few that I not necessarily didn't like, but would have liked less of. Jace was a pretty awesome hero. It took him one night to realize Vivienne was a game changer. Once he made the decision to pursue Vivienne, he was all about her and only her. He's pure alpha and likes control but it wasn't over the top if that's not your thing. He does have some insecurities because he's looked upon as a thug in the community but it was handled well by the author. It was a good message to look past appearances. Vivienne's insecurity was the one thing I wish we had a bit less of. It was understandable but when you got a guy like Jace, you just want her to jump head first. Both of their insecurities did cause a bit of miscommunication between them. I liked Vivienne a lot and that was my only complaint about her. Beyond the main characters, I liked that there is this group of guys who are tighter than blood brothers. They have each other's back completely and while they are good men, they also don't stick to the law. They are honorable, protective and fierce. Also, they take good care of their mommas. I like all the men in this group which just makes me excited to read the rest of the series. On to book 2....
